Paul 22:18 6/7/2002	Just got back from Northampton.....couldn't stay for the finals.....Just to add my 2 peneth.....Well done Infinity, sounds like it was a close game (will watch demo later), I hope u do us proud in the states. Real unlucky dNC...I think u played most cosistant over all and I hope you carry on doin the LANs on blighty. Only my second LAN event and the atmosphere waz great, teams were sporting and from a spectators point of view, some real good rounds. noc were not in there best shape, but the team has new tallent (to the team, that is), so soon the team will be back on form. Just a note on the event.....fookin ace job by IT Centre, VGA (Sujoy and Dom)....went like clockwork...I hear it waz the first LAN event to finish at a decent time :) - played...whens the next one ur doin?? DArtagnan Infinity-eSports 22:38 6/7/2002	H: Anything can happen in 1 map, in this case Erm played a very good game and won the pistol rounds, i think with any game in torunaments when the game finishes at 13 rounds, you dont get a true picture, had it gone the full 24 rounds the score might show a different picture. It was the best run tournament ive ever played in, and the most exciting, that was the best feeling in CS ever. Well played to dNC, they were an extremely good team, and we had to play better than ever to be able to beat them. I think its just a shame the irish qualifiers never took place, cause they are certainly good enough to deserve to be playing in Dallas. [Comment: Report IP: Logged]

DArtagnan Infinity-eSports 22:53 6/7/2002	Yeah all the demos will be uploaded. The HLTV thing was a shame, if we had known before hand that there would be a problem, we would have set it all up on our servers. The demos will be up though, so dont worry, and there's some amazing demos to watch, so many quality close games. A huge thanks to Cyberweb Virtual Realm Slough, http://www.cyberweb-ltd.co.uk, for putting us up for a week, being able to practice under those conditions is the reason we won, they were amazing guys, thanks so much, even cooler than you're coming to Dallas with us :P [Comment: Report IP: Logged]
