Goodbye Elem

Posted by Myers at 07:37 12/7/2002.

UKTerrorist would like to thank Elem for his 2+ years service to the UK cs community as he flies to Ghana this week.

Elem, a member of the last Team-UK for the CBnations competition, has been known for being one of the top snipers around for a long time. Elem showed a trait that has become uncommon in recent times, in the fact that he stayed with his clan UKLA through thick and thin. I'd personally like to wish Elem goodluck in Ghana and hopefully we will hear from him again sometime.

DArtagnan Infinity-eSports 22:55 13/7/2002	He was actually asking if you wanted an autograph dopey c***. And El3h, i recall you being the one threatening fights on-line to annum "you wanna watch out, at the next lan we're gonna have words" and then Annum commented about your bad breath, so he didnt wanna have words and on it went.....but still, rather hypocritical of you, especially when all he asked was if you wanted an autograph. [Comment: Report IP: Logged]

El3h 08:51 14/7/2002	some of the greatest things given 2 man is free will and the abilitie 2 learn from there mistakes, which most of u all seem incapable of doing half the time still run around in your childish ways. The quality of a person's life does not depend on the circumstances of his life as much as the attitude with which he faces those circumstances. Many people wish they could change there life when all they need to do is change there attitude toward life. anyhow got more productive things 2 do with my time than read posts cya [Comment: Report IP: Logged]

Annum, your post only illustrates your immaturity. Fair enough El3h's opinion may have sounded harsh but what you said just made you look stupid. I would like to say I know El3h on a more personal level than a gaming friend, you're assumptions of him wishing to "be like Elem" are way off. I especially liked the one, "you want to be like him so much you copied the first part of his name". Let me explain, Elem's alias is derived from his full name initials spelt backward. El3h's alias is abbreviated from something he used as an alias long before he met/knew anything about Elem, or played CS. The similarities with "E + I" really do make you sound like a tossa when you use them for the basis of your argument.

On side note, have fun in Ghana Mark and a safe journey.

Gary, telewest suckass they never even showed up! Coming round (supposedly) on the 18th.
