Dartagnan Removed From ClanONE

Posted by Myers at 18:00 22/12/2002.

Greg 'Dartagnan' Edwards has been removed from ClanONE as of today. This news comes just a day after ONE were beaten 1 - 13 by Infinity-eSports in the Intel Masters competition final.

Here's what ClanONE had to say regarding Greg Edward's departure:

We have decided to remove Greg 'Dartagnan' Edwards from ClanONE. We feel this is a necessary measure to help us improve. Unfortunately Greg did not fit in the clan, and we felt his attitude was inappropriate on the majority of occasions, and was very abusive to the team ingame which lowers morale. This is our main reason for removing him from our team. We wish Greg the best of luck in future. Our line-up is now: Righteous KhAoS Barely-Legal Keiju Strikes Negotiator

This news might come as a shock to many after Greg was removed from the Infinity-eSports roster a month ago. The question has to be where will Greg go now, bullet, ui, erm, omg!?.

He was a nice guy most of the time yea, just in games he would always point out what WE did wrong. He was never to blame in anything that went wrong always us, we were all sick of it and was making us all get annoyed. id rather come 2nd, come out of the game saying we all played a good game and was ul, than having greg not saying ONE word to us, packing his stuff up and leaving the event not even saying bye. omg ! Sarge Shoot First Ask Later 18:14 22/12/2002	course people get p***ed off...but its no reason to blank your team, they are after all, the people that will help you win. Infinity were blatantly prepared on de_science like any good team should be and fair play to them,because no one else was so they walked it. id rate my chances if i played 3 games, 2 on a map that you were well prepared for (with chances being everyone else isnt) and one that you know your good on. Ti MuffinMan 18:15 22/12/2002	It did look odd Greg walking off after a match. Being that he is a big guy and all and he is 18 /

		19, looked really odd. If ONE nearly beat i-es without him then they would almost certainly beat them with him if it was on a proper map. He can't count the intel gay map as a proper map surely. [Comment: Report IP: Logged]

That's crap lithium. You can tell i-es had practised that map big style compared to ONE. I saw ONE trying to open doors that

	cannot be opened etc. I-es knew all the scabby places. You have got to remember i-es / 4k have been playing at a high level for a number of years. ONE have been playing at that level for like 6 months? Maybe that excuse is not so strong on other maps, but ONE don't have as much trouble with i-es on proper maps. [Comment: Report IP: Logged]

However, I was working so decided to just take it off you and get your fat ugly face out the building. If you started crying, we would have had to evacuate the building, you big blubbering s***. /Rant mode God I love after LAN rants....there was talk of i-es being kicked from the event to make an example of how to treat this. Next time I'll push it maybe. Also it's amazng how Myers normally sits so far up i-es arse when they laying and s***. Yet this time 'cos the teamUK ladies was there, that's all he seemed to be doing, following them around like some dog on heat (with some others I really couldn't care who). Xenon was f***ing annoying about his PC being the same and expected me to f***ing reserver it for him or something. The fact that everyone wants these LAN comps with decent spec PC's and big prizes and sponsors, then decide that they want to f***ing b***h about everything and steal the sponsors latest gfx cards amuses me. GDOC 2 anyone?? not likely is it, BT even pulled out of this Intel show which they was going to stream the Imax footage live and run live HLTV. They probably just thought f*** it. For me the worst bits of the even was the fact that they had to change it to sinlge elim, the

		fact the ladies had been sitting there all day not to get to play their exhibition game and the fact I was working and couldn't actually just crack Lith in his fat face and watch him blubber like a child in the corner. /Rant over [Comment: Report IP: Logged]

Dartagnan Removed From ClanONE

Posted by Myers at 18:00 22/12/2002.

Greg 'Dartagnan' Edwards has been removed from ClanONE as of today. This news comes just a day after ONE were beaten 1 - 13 by Infinity-eSports in the Intel Masters competition final.

Here's what ClanONE had to say regarding Greg Edward's departure:

We have decided to remove Greg 'Dartagnan' Edwards from ClanONE. We feel this is a necessary measure to help us improve. Unfortunately Greg did not fit in the clan, and we felt his attitude was inappropriate on the majority of occasions, and was very abusive to the team ingame which lowers morale. This is our main reason for removing him from our team. We wish Greg the best of luck in future. Our line-up is now: Righteous KhAoS Barely-Legal Keiju Strikes Negotiator

This news might come as a shock to many after Greg was removed from the Infinity-eSports roster a month ago. The question has to be where will Greg go now, bullet, ui, erm, omg!?.

Dartagnan Removed From ClanONE

Posted by Myers at 18:00 22/12/2002.

Greg 'Dartagnan' Edwards has been removed from ClanONE as of today. This news comes just a day after ONE were beaten 1 - 13 by Infinity-eSports in the Intel Masters competition final.

Here's what ClanONE had to say regarding Greg Edward's departure:

We have decided to remove Greg 'Dartagnan' Edwards from ClanONE. We feel this is a necessary measure to help us improve. Unfortunately Greg did not fit in the clan, and we felt his attitude was inappropriate on the majority of occasions, and was very abusive to the team ingame which lowers morale. This is our main reason for removing him from our team. We wish Greg the best of luck in future. Our line-up is now: Righteous KhAoS Barely-Legal Keiju Strikes Negotiator

This news might come as a shock to many after Greg was removed from the Infinity-eSports roster a month ago. The question has to be where will Greg go now, bullet, ui, erm, omg!?.

Dartagnan Removed From ClanONE

Posted by Myers at 18:00 22/12/2002.

Greg 'Dartagnan' Edwards has been removed from ClanONE as of today. This news comes just a day after ONE were beaten 1 - 13 by Infinity-eSports in the Intel Masters competition final.

Here's what ClanONE had to say regarding Greg Edward's departure:

We have decided to remove Greg 'Dartagnan' Edwards from ClanONE. We feel this is a necessary measure to help us improve. Unfortunately Greg did not fit in the clan, and we felt his attitude was inappropriate on the majority of occasions, and was very abusive to the team ingame which lowers morale. This is our main reason for removing him from our team. We wish Greg the best of luck in future. Our line-up is now: Righteous KhAoS Barely-Legal Keiju Strikes Negotiator

This news might come as a shock to many after Greg was removed from the Infinity-eSports roster a month ago. The question has to be where will Greg go now, bullet, ui, erm, omg!?.

SuperNick 23:18 22/12/2002	hope ONE know what they're doing in this decision. i've always been the type of person who prefers to iron out the problems rather than avoid them or remove them but everyone has their beliefs. no offense but whoever they replace greg with isn't going to be his standard. [Comment: Report IP: Logged]
ND 23:19 22/12/2002	oh yes and mat did make the avi Whatever you say about him on LAN Obi, its wrong because i've played with him and agaisnt him on LAN and hes better than he is online. I'm actually fed up of people laying into mat when he hasn't actually done anything wrong. Give it a rest. [Comment: Report IP: Logged]

saph 23:23 22/12/2002	wwcl is fully customizable for whoever is installing it / has ftp access to the server. All commands that it forces can easily be changed as its only a .cfg file that holds what is goin to be forced, and what value it is goin to be forced at, so you can't say in general what wwcl is running. [Comment: Report IP: Logged]
ND 23:25 22/12/2002	lol it was 0.1 take the hint. [Comment: Report IP: Logged]
SuperNick 23:26 22/12/2002	yeh well ND, he seems c**ky online, thinks the world of himself and he should be in team uk over anyone else. that don't exactly make people want to give him a pat on the back. and on top of that, the only lan people seem to remember where apparently he played TERRIBLY bad, how can you be supriised people flame him?

that's not a flame from me btw,
just why i feel that happens.

the community is shallow
anyway, guarentee you if he
went to a lan and impressed
people one time, everything
ever online or previous to that
lan will be forgotten.

you can say that because all
you have to do is look at
annum or lil.

i mean chris0 & lithium (about
5 comments up) can't say
"wwcl is xxx" I dunno what
default is anymore (gonna be
0.05 or 0.1), but if your gonna
install it properly you should be
checking these things, and
setting it up how you want it,
which is gonna be 0.1 really

saph - theres no point in WWCL
if u just edit it to suit you. The
whole point in WWCL is to a)
enforce cvars and b) to ensure
every wwcl server has the
same settings, to make it fair!

Its not gonna be fair if u just
edit ur wwcl to config LOL.

btw - i think im gonna setup a
CONFIG server - wherby WWCL
basically sets your settings to
f***, like ex_interp 0, and all
other kinds of f***ed up
configs, and all the configers
can just play on there, instead
lahahaha

supernick it all started with ps2002 and i was a good boy .. as soon as the flames came i got all defensive and started to abuse back. maybe i shouldnt ahve done but it still doesnt give ppl the right to s*** stir and spread an avi that i made on a wwcl server and claim im all cfg. thnx for your imput and i will stop being such a big head and abusing ppl from now on, and maybe, at a future lan i will put in a memorable performance and let it end there pls for the love of god let it f***ing end.

23:34 22/12/2002

they'll have to change wwcl then, as its a bunch of .cfg files basically.

What i'm saying is, if you see wwcl installed on a server, you can't take for granted interp is locked at 0.1 or locked at 0.05, as the person who set it up in theory can do whatever they like, so when you were saying "newest wwcl uses interp 0.05" or along those lines, that isn't true

[Comment: Report | IP: Logged]

SuperNick

23:35 22/12/2002

the whole config thing has been taken too far really.

fair enough ex_ commands and other stuff will help you a little bit but christ they don't make the player.

the only things i feel that shouldn't be allowed are f***ed up rates which make you unhittable and get the flukiest mofo shots ever and a3d which

		can make a player hugely improve. [Comment: Report IP: Logged]	
	ND 23:36 22/12/2002	errr if u type ex_interp in your console on a wwcl server as far as i know it says "variable locked at "x.xx", and it was on 0.1 8) [Comment: Report IP: Logged]	
	SuperNick 23:37 22/12/2002	that's true. can you prove it tho? [Comment: Report IP: Logged]

	KhAoS meatyballs 23:41 22/12/2002	it's true, but i'm told there are many simple ways of getting around it. [Comment: Report IP: Logged]
