Infinity-eSports.net goes live

Posted by Myers at 23:41 30/9/2002.

The Infinity-eSports website has finally gone live after roughly six months. Here's the statement from the website:

One name change and 5 months late the Infinity-eSports website is live at last!. Yes it's been a long struggle but we've finally managed to get this website up and running. As the week progresses expect frequent news updates concerning the very latest happenings from around the globe regarding Counter-Strike.

My thanks go out to Pyroux and Sy especially for all the work they put into the creation of the website.

For all you budding pro-gamers, or if you're just a big fan, there is a demos section. Which promises never before seen in-eyes and HLTV action. A columns section, with updates and tips from the players as well as the run-of-the-mill forum action.

So check it out!

alpha Da boss Inspired Gaming 23:55 30/9/2002	Dodgy colour scheme, text is too small and the format of the shoutbox and in fact the layout of the whole site looks a little familiar... :). [Comment: Report IP: Logged]
Marcus calibre 23:56 30/9/2002	surely not another ukt rip off? [Comment: Report IP: Logged]
Benji 00:47 1/10/2002	yes I agree its borrowed slightyl from ukt even the layout is the exact same ;p. i cant see some of the text, that blue hurts my eyes..iv gone blind !! maybe i should stop playing pocket billiards :/ [Comment: Report IP: Logged]

shads theb0g 03:00 1/10/2002	and whether it is a copyish or not, it loads & changes page almsot instantly compared to a few secs on ukt, and it looks better :P *IHMO* _TBH_ [Comment: Report IP: Logged]
Eagle 08:29 1/10/2002	Bah <--- at school and they dont allow us in hotmail so i cant register I finally know who that other sponsor marc was talking about for ages is. Everglide :? thought it'd be someone like that. [Comment: Report IP: Logged]
Eagle 08:32 1/10/2002	Of course i wouldnt look down one news post [Comment: Report IP: Logged]
DaKid 08:53 1/10/2002	I thought the above comments would be OTT, because although UKT is a sweet layout, it does borrow elements common in web design these days, but omg ... lol. UKT skinned blue with different fonts. Classy ... and it took how long?!! :) Anyway, imitation is the sincerest form of flattery, and

		they appear to have imitated well. Although the background could be a tad less garish, it is a good site, and we can just hope it'll keep up to date, unlike a lot of clan sites that are around. Nice one on the demos bit ... the best way to learn good CS is to watch the best, well ;) [Comment: Report IP: Logged]	
	alpha Da boss Inspired Gaming 10:13 1/10/2002	UKT takes a few seconds? What sort of connection are you on shads? :P. The average page gen time for UKT is under 0.2 secs. [Comment: Report IP: Logged]	
	Ripper-- 10:30 1/10/2002	its not bad, could have been better with all the time it took. Prefer UKT and www.six-kittens.com though [Comment: Report IP: Logged]	
	St_George g30rg3h UKTerrorist 11:09 1/10/2002	well, if i'm honest it's not the best in the world. More text on that front page than a novel by catherine cookson. :D [Comment: Report IP: Logged]

	ridiculous 13:07 1/10/2002	How can you so blatantly copy a website (one that most uk cs retards visit) and then put a legal box on with copyrights. Stupid c***s. [Comment: Report IP: Logged]	
	Sy 2seXeh 2perfoRm 13:11 1/10/2002	the only thing that is the same between the ies site and this one, that differs between thousands of sites is the 3 boxes at the top the rest of the layout is seen all over the internet = [Comment: Report IP: Logged]

Dense Boy2 15:45 1/10/2002	[quote]and why there is already enough ESR mirrors (like this crummy site) in existance, [/quote] oh ur such a bollock, if its so crummy why are u on it? at a guess its because it does the job [Comment: Report IP: Logged]
j0nb0y 15:52 1/10/2002	hey ridiculous the copyright thing is a bit odd I agree, however what is even more stupid is the fact that you'll find almost every single clan website is "copyrighted" at the bottom of the page however I doubt most of them even really know what a copyright is and that you have to pay for a copyright! nice website I think, we haven't had once since the early days of b***h about 2.5 years ago. [Comment: Report IP: Logged]

iron 16:00 1/10/2002	the design of that site, is so ripped from this its not even funny. [Comment: Report IP: Logged]
ryano theb0g 16:14 1/10/2002	googlepuff why alias? [Comment: Report IP: Logged]
alpha Da boss Inspired Gaming 16:35 1/10/2002	j0nb0y you don't have to "pay" for copyright. You may have to pay legal fees to enforce it, and you have to pay for patents, but that's it. [Comment: Report IP: Logged]
shads theb0g 16:47 1/10/2002	1mb BY cable alpha :P and yes i worded it badly, i just meant that the i-es site seems more or less instant loading/changing pages whereas ukt & 99% of other sites are noticably slower by my eye so it must be well coded or summin :P [Comment: Report IP: Logged]
Smittins 16:57 1/10/2002	maybe the site uses bandwidth from the previously very fast but now lagging a bit infinity eServers :P [Comment: Report IP: Logged]
decrepit Croydon 17:03 1/10/2002	a lot less gfx on that site tho shads, gfx add a lot to loading time dont they? [Comment: Report IP: Logged]
shads theb0g 17:13 1/10/2002	arent graphics cached after the first visit to the site? and whether it is or not im not having a go at anyone or anything just a little point thats all :/ [Comment: Report IP: Logged]
decrepit Croydon 17:15 1/10/2002	yeh they r, in which case i dunno :/ ukt loads fast for me (almost instant) other than the 1st time like u said, cept when BY have a gay moment and all dns dies └_└ [Comment: Report IP: Logged]
kaid- 19:18 1/10/2002	the old 4K site that i think was made by the quake side (i think) was sweet (great design, layout, graphics, colour scheme, content etc). the new one though, aside from the colours (which aren't too bad) is pretty nasty. very plain and horribly 'boxy'. The cell padding is a bit poor also. on the plus side, the coding

		seems to do the job nicely, and the main part of the logo is pretty good. [Comment: Report IP: Logged]

	j0nb0y 08:49 2/10/2002	Yes alpha soz however people should also realise that to copyright something you need to do: "Copyright [dates] by [author/owner]" The c symbol (wtf is it on keyboard) doesn't have any legal bearing any more. Correct me I'm wrong by all means. [Comment: Report IP: Logged]	
	alpha Da boss Inspired Gaming 09:23 2/10/2002	That is the correct form for a copyright message but it isn't required. The copyright symbol is still perfectly valid, it's (c) that has no legal meaning. But as I said, you don't need it at all, anything you do is still automatically copyrighted. Messiah Game2XS.Monkey Magic 15:02 2/10/2002	The red one before 4K.cs appeared Kaid's? [Comment: Report IP: Logged]
kaid's- 16:24 2/10/2002	ah, i remember the red one now, but no, it wasn't that. as far as i remember it, i made b***h a dark navy webby aaaaaaages ago, then they had the red one which was alright (if i remember correctly it never seemed to be finished 🖼️:P), ...then they had the really classy one that i mentioned before. hard to describe it, can't remember the colours too well but it had a large logo on the top, various sections on the left split into 'members', 'results' and so on (as they had two teams), and i think the latest results were in a small horizontal bar across the middle just below the logo. (CS, Q3, QW). Oppie used to post news on it a lot 🖼️:P ... and now they have the current site. [Comment: Report IP: Logged]
