ONE News - StrongBad - CC++

Posted by NoToRiOuS at 01:57 6/5/2003.

What better time to do a round up then 1:57am. Right straight to business:

- ONE have launched a new UT2003 squad made up from Impact.uk and .nl. On top of this Obi sends word that ONE will be attending the next UKT lan after missing the first two. Here's the word from the horses mouth:

As part of the ongoing drive towards Multi-Gaming, ONE have added an Unreal Tournament 2003 team, in the form of NL and UK based Impact. Impact are a well established and well ranked team, and we hope that this merger will see great things for the growing ONE community. For more information on this visit our website at www.clanone.tk

ONE will also be announcing some big news soon, which will benefit both the ONE-community and hopefully the UK CS Scene in general. Also ONE.cs shall be attending the next UKT LAN.

- Next up is our favourite internet based cartoon 'StrongBad'. Who brought the likes of 'Trogdor' to our screens. This crazy kat has his own mod being made after him. Check out the renders [here](#).
- Last is console connector. Basically this program allows the user to enter server information and it will sit in the console, retrying until a space frees up. This is an essential download for all the "pro-gaymers" out there. Get it [here](#).

R4nCiD 02:28 6/5/2003	rudeboy: I think it actually retries for you IN the console, so as if you had connected but were dropped to do slot reservation for instance, it might continue to retry for you. Not sure if this is how it works as I cba but meh...seems logical to me. [Comment: Report IP: Logged]
