Arguably United Kingdoms 2nd best cs team has made some interesting roster changes, Strikes and bl have decided to part ways from CLANONE after 3years in the squad and CLANONE have now recruited dark0r and ex-clan KhAoS.

Topic in clanone room "Strikes and BL leave ONE, thanks for the time guys. Welcome KhAoS and Dark0r, GL guys. || New website on the way from #pixate"

Update

over at ukterrorist arsen managed catch up with dark0r and KhAoS and a word, heres a snippet

arsen: KhAoS, what made you go back to ONE?

KhAoS: Well after i left ONE i realised it was probably the wrong thing to do, i really wanted to play with them again because they're good friends and luckily i got the chance to.
