Xtra preparation for UKT3

Posted by Protex at 16:38 15/5/2003.

With UKT#3 having just been announced it seems Xtra are making some changes to try and build upon their performance at UKT Bath. After some internal problems they are pleased to announce the arrival of AdY in their lineup and the unfortunate removal of Dark0r.

A few words from Xtra regarding these changes:

Xtra`ZaG "Problems came up with Dark0r, and being so close to UKT we decided to act. Ive known AdY since before his iLLu days so it wasnt hard to convince him to join us "

Xtra`Gilg "If anyone see's Dark0r could u please tell him he's been removed, coz since he faked his internet going down 4 days ago none of us have seen him"

AdY had this to say about his recent move:

AdY "I thought Xtra was a better choice for me as I get on well with the guys and I didnt think I was fitting in well at barcodes and with Ex being away and also the suspicion hes joining another team helped me make my decision but im sorry to barcodes that I have to leave so early."

An unfortunate loss for Barcodes who also impressed at UKT Bath, one wonders how this will affect their preparation for UKT#3. It also leaves the Xtra lineup looking like this:

Gilg - ZaG - Stu - wolfeh - aKuJii - AdY

We wish both teams the best of luck.

Dev theb0g 16:48 15/5/2003	Xtra wont impress as much as they did at the last UKT for a number of reasons, ONE,4K are going to this event as well as omg! / iM and co strenghtening. They however will still do fairly decent. Not sure what to make of the DArk0r thing. If Ex does leave barcodes (although i am not sure why he would) then barcodes will bounce back from it as they still have their core team which has been together for over a year now. Lots of decent clanless people around at the moment... [Comment: Report IP: Logged]

Xtra preparation for UKT3

Posted by Protex at 16:38 15/5/2003.

With UKT#3 having just been announced it seems Xtra are making some changes to try and build upon their performance at UKT Bath. After some internal problems they are pleased to announce the arrival of AdY in their lineup and the unfortunate removal of Dark0r.

A few words from Xtra regarding these changes:

We wish both teams the best of luck.

Doesnt it make you sad when clans treat people like objects. Being Afk for 4 days, is worthy of being kicked out of a clan? And not being told in private, by the clan leader? Sounds totally gay to me.

I thought the whole idea of a clan is a group of friends who play games together. Not s*** on each others heads to try and be the best team in the world.

It is, after all, only a buisness, and not a cut throught football transfer market.

Maybe not everyones clan is the same as mine. I wouldnt ever think of leaving my clan, its not blind devotion. But its the fact i enjoy myself so much, hearing my mates of 2 years, swearing blue language at them. When i shoot there faces off. And love the team work when it goes right. When we get it right, oooo :)

I heed you to the 4K Example. Theyve almost stayed together though thick and thin, and im sure there pretty good mates in and out of cs. Nice lads as well.

Just my 6 pence worth.
Just seems people are getting more s***ty, less pally, and more mardy.

Maybe this is why the euro scence appears a lot more friendly than ours...
And the UK scene, appears at first, full of "leet" c**ks.

:)
Flame away...

i ment

It is, after all, only a game and *NOT* a buisness, and not a cut throught football transfer market.

May i enquire, what these people play games for then?

Even the most Highly paid footballer must enjoy himself in his work. (Perhaps a bad example, as he perhaps may be a money whore)

They obviously must gain enjoyment out of winning. But surely a friendly enviroment will promote this more, than a back stabbing enviroment?

Take for example Blinky, He has no team play skills at all. He is a Quake 3 death match CS player. Why? Because he enjoys it. He enjoys winding us all up. He enjoying

wiping up all of 4K with his cfg.
And as such, he will never succeed. Because no one wants him in a high profile team, because he wouldnt fit in, and he wouldnt play as a team.

Teamwork is built with friendship, and trust. Same in a game. If you are in an enviroment that promotes this, then you will perform better than not.

Sorry Xtra, i dont know the ins and outs, and im sure theres more to this than meets the eye, or is posted here. But I feel strongly about this whole, swapping players, like a transfer market idea. I personally feel its a bad thing for the UK cs scene.

After all, HeaTon would be s*** if it wasnt for his team.

He may cheat, But anyone who has seen him at a LAN, cannot dispute, that he is actually rather good at CS as well.

I wont dispute the fact hes a c**k mind.

saw him at Landed 2 (www.landed-lan.co.uk)

The one with the legendary Config (Ex_interp 0)

My point being, that although, he cheats, and cfgs. The c**k can actually aim. And knows the game.

But, he still cheats and config's.

He will never get into a team because of the above, not because he is some great aiming solo player.

solo player? hes a dirty frag whore.
Watching ck at Landed.

Typical Scenario.

Jimbob runs off, rushes the other team at spawn.

One of two things happen.

He Dies. In which case he calls his team f***ing lamers, and points out how s*** they are. Even though there all in there positions guarding the Bomsites, and the other side of the map.

He Kills all 5. In which case. He goes on about how elite he is. And how no one can touch him.

Either way hes a c**k. and even if he didnt cfg, or cheat, He wouldnt last long in a team, cos they would prob

break his legs at LAN.

In fact i dont know how Gristy managed not to kill him last landed.
