Gryff 23:31 21/4/2003	Hi, I'm in Clan ONE, but I cant aim. Maybe they need some more people who cant aim and then they can beat SK? SHOOT THAT WALL!!!!!!!!!! FULL AUTO AND 360 PWNZE... sorry but claiming you lost because your aim is crap when your in a decent clan is no excuse at all lol. </meanie> [Comment: Report IP: Logged]
AcolyTe 23:31 21/4/2003	dude, there a comma, which seperates the 'i lost' and 'beacuase' read it properly before you make comments? [Comment: Report IP: Logged]

b33p 23:34 21/4/2003	there is no i in a team game like counter-strike, i personally think tactics > aim/personal skill by a large amount, of coarse you have to have some decent personal skills aswell :) [Comment: Report IP: Logged]
dUck 23:36 21/4/2003	ok he didnt say whatever i put in quotation marks but i was just making a point, the fact he did say "cos" means he is making excuses. ok? btw my aim is pretty damn crap, any "1337" clans recruiting? [Comment: Report IP: Logged]

	Psy^ xtreme9.uk 23:41 21/4/2003	aim_map is good for aiming, but for gun control it won't help you much for matches... [Comment: Report IP: Logged]
	Psy^ xtreme9.uk 23:44 21/4/2003	To add to my previous post. In matches at the level of ONE you will mostly find yourself covering part of the map without moving to much, you may also be crouching, and when an enemy comes you don't go for a 2 shot burst to the head, you will go for a good old long burst at the enemy... [Comment: Report IP: Logged]
	kirium 23:44 21/4/2003	someone said that AcolyTe played very similarly to Keiju? dunno if Rhyzz or someone from ONE said that but looks like they were wrong from comments made by AcolyTe

		(about aim) :P i think that having a good aim is essential when it comes to being a good clan player,but thats just my opinion... maybe he makes up for it with some uber intelligence, paitence & teamplay. :) pity about DArt, something got fu*ked up there. [Comment: Report IP: Logged]	
	phonics 23:44 21/4/2003	there may be no I in team; but theres an I in win. [Comment: Report IP: Logged]	
	Gryff 23:44 21/4/2003	I wasnt ripping him for losing, I was ripping him for making a lame excuse :-] PS: I'm ready to get b0ned my match on wednesday :-] [Comment: Report IP: Logged]	
	dUck 23:45 21/4/2003	yes acolyte you did say you weren't supried that you lost, but then you make an excuse for it. so THE ONLY REASON you lost is because your brother tells you not to play public cs and hence your aim is crap? so it's nothing to do with GingerFish being decent at CS? as little as i know about cs, i don't see how playing publics improves your aim, as i've been playing publics for ages and my aim is still crap :P [Comment: Report IP: Logged]	
	AcolyTe 23:46 21/4/2003	but i didnt make an excuse gryff? [Comment: Report IP: Logged]	
	Keiju 🏆 UKT 1v1 winner 2003 23:47 21/4/2003	And acolyte CAN aim, which can rival any of those in any clan in the world. [Comment: Report IP: Logged]	
	AcolyTe 23:47 21/4/2003	did i even once say gingerfish wasnt a decent player? [Comment: Report IP: Logged]	
	Gryff 23:47 21/4/2003	Gingerfish for Team UK. [Comment: Report IP: Logged]	
	Keiju 🏆 UKT 1v1 winner 2003 23:50 21/4/2003	Playing public clearly keeps your aim on form, where its not as importnat in clan wars, and if you play pcws regularly you keep your aim on form and get used to the way you have to play in clan wars, but we've played close to no pcws these past few weeks so he hasnt had much chance for cs. This is all he ment, in end its all for fun,	

		so dont know why you have to be hostile in your comments [Comment: Report IP: Logged]	
	dUck 23:50 21/4/2003	yeah ok psy and i happen to know that Ginger only d/I the map about 2 days b4 he went on holiday for 4 days which gave him about 1 days praccy on it, in which he played 1 match vs genics and got severly boned. yeah so good reason. [Comment: Report IP: Logged]	
	kirium 23:50 21/4/2003	aim is improved by playing cs in general. but im sure the improvement is accelerated by playing aim maps (cs_feighters & cs_c**k are the best ones). and i dont think hes making an excuse: "not a suprise, I lost to him cos my aim aint that great" ...since its an aim_map thats surely a fair comment? excuse would be... "was a suprise that I lost to him, I expected to win but my brother was using MSN and kept on giving me choke every few seconds and so my bullets werent regging"etc [Comment: Report IP: Logged]	
	DArkOr Infinity-eSports 23:51 21/4/2003	publics turn u into a hunter ~_~ [Comment: Report IP: Logged]	
	dUck 23:51 21/4/2003	ok sorry acolyte, you own. [Comment: Report IP: Logged]	
	Gryff 23:52 21/4/2003	sigh I was only having a joke, didnt mean anything by it. I've played with ginger @ lan, was just having some fun. </apology> [Comment: Report IP: Logged]	
	Genics thed0n 23:52 21/4/2003	gingerfish is s*** :P [Comment: Report IP: Logged]	
	Keiju 🏆 UKT 1v1 winner 2003 23:53 21/4/2003	sorry for making pointless comments would be more like it [Comment: Report IP: Logged]	
	phonics 23:55 21/4/2003	so is he saying he has a crap aim in general or he just aimed badly, and if hes sayign hes just aimed badly why is everyone having a go at him, in fact he didnt even seem to b***h about it?

23:55 21/4/2003

its not a surprise i
lost, because of the
simple fact that i
dont practice my aim
at all

it is an excuse, it wouldnt have
been if all he said was that he
wasn't suprisd he lost, he
makes it sound like he would
have won if he practised aiming
more, just like someone would
have won if their MSN didn't
pop up.

Fred i said Acolyte was like
Keiju in his style of play, and i
was right cos ive seen them
play like nearly everyday. they
used to share a pc so they
watched each other all the
time.

1v1 dont mean s*** dont
mean ur a good player at all. I
hate ppl who think if u play
s*** in a 1v1 or on a public svr
that ur a crap player, just
shows how little they know. Im
s*** at 1v1 and i play s*** in
publics most of the time, but at
the end of the day i KNOW i
can play well in a pcw so i dont

aim in training maps and aim in
clan wars are TOTALLY
DIFFERENT. my experience of
these dumb maps is just ppl
hiding behind boxes and
popping out to spray a few
shots at where they reckon u
will appear.

thats not aim, its reaction and
how well u know the maps.

in clan wars, especially as Ts, u
need to cover a far wider area,

	so u can afford to get bogged down in silly strafe wars against 1 enemy. Moving aim between enemies who are hiding in unexpected places requires so much more skill its just stupid to compare. [Comment: Report IP: Logged]

Psy^ xtreme9.uk 00:14 22/4/2003	About what Righteous said - No offence to luck1ng, but he isn't the hottest public server player, even though he performs well on them, yet he when he plays matches he can do as much damage as any other professional player. :) many top players are like this and Luck1ng was just an example as he was the first 'pro' that came into my head when I thought about 'pros' and publics. :) That is why professional CS is focused on matches cos they bring out the point of the game. Keiju will win it so easily, you
people are yet to realise what a
joke you all are. You call people
c**k, then they play 1 good
game, you suck there dicks,
then they play bad, and there
c**k again. Your all losers cos
you've never achieved
anything, nor proven anything.
The only teams to have shown
true talent are ONE and 4K, so
shut your yapping and start to
learn to just say 'gg' and 'ul'.

Pricks.

im a nice guy to people who i like, which is about 2% of the UK CS scene.

The rest are just people who truly believe they are good, and that they can outplay a 4K player or a completely underated player like Annum or sumit.

Then of course theres the tag-along groupie people. These fags take the p*** out of people who the 'pros' dislike, to try and get them noticed, with a witty comment or good insult.

Get a hobby, cos your just sad at the end of the day. Theres a handful of people in this country that understand the game, and the concept of it. The rest of you just like to think your good and that one day you will be in Dallas

It was a f u c k i n g joke and you guys turn it

into such a huge issue, can't see that you must be blind, and anyway the thought of Keiju beating his brother with a stick...kinky!

And Acolyte:

maybe my bro 'advises' me not to play public cs so i dont turn out to be a loser like you

I think you were the one to make it personal mate.

Everyone jumping down dUck's throat because he 'verbally abused' a player in a 'pro' clan.

Ive played againsy gingerfish quite a bit in PCW's and things before, and Ive always known him as a good player (dodgy as f*** some of those shots through d2 DD's :P) and I personally thought that Acolyte would havea hard time of beating him, and he did. Its not a big deal. Im sure ONE arent worried in any way, shape or form.

As much as I rate Acolyte as a great player the whole "he'd waste Gingerfish at LAN" may be true, and personally I think that would be the case. But the 1v1 tournament is an online event, same thing as say...clanbase ladder...is the best clan at the top of clanbase??? Exactly. It'll be interesting to see who wins this I think an unknown player could shine through and take it.

Too many people take it far too seriously, and the idea of this was to play the game in a relaxed fun enviroment, not to prove your the latest talent in this pathetic (in attitude) so called 'scene'. Dev theb0g 12:06 22/4/2003	lol, right. Firstly this is a FUN tornament, he lost so what? he's in clan ONE... no one is disputing the fact he is a good player and if they were there wrong, acolyte is a good player. 2ndly RISSE, gregs oponent wanted the default and didnt want to arrange the map for another time becuase he isnt around much over the next week or something. [Comment: Report IP: Logged]
Rhyzz Nocturne 12:06 22/4/2003	The fact people are calling Acolyte s*** because he lost a 1v1 game is the point im trying to make when i say UK people are arrogant. They truly believe that they are better than him just because he lost, there the kind of people who say 'Oh 4K beat SK and we beat 4K that means were the best in the world' Your all stupid. The few people who actually understand what the game is for, and how it plays, are the people who have achieved. The game is 40% luck 60% skill, it totally depends on connection, server state, and the map. A team can be amazing at one map simply because all of the players like the map, and they can say its 'teamplay', but when it comes to a sorry little 1v1 map, they get hammered, and the sad thing is, the majority of UK cs players think the 1v1 matters, even though they say on UKT 'Its 1v1 who cares', there thinking deep down 'i could have beaten him hes awful'. The comments are funny on here, and it just makes me laugh at how gay most of you all are.

Also, Montaver...you prove my point exactly. You've never achieved anything, and you say 'what is there to get about the game'. Are you daft? you come on here posting comments trying to make yourself look cool and as if you understand the game, but you dont. Stick to playing on blueyonder, cos its the only time you might get to play 4K or ONE....Proper CS players.

First post on UKT and it will prob pale in significance compared to Rhyzz's previous comment. Just like to comment on erm^Senile i mean erm^Bom's comment & Rav0rs. First off Rav, you never beat me you little gobs***e I was dling u little tart but neway moving onto Rob, theres no point taking out your anger at being so old on me m8, just face the facts, your 2 old for CS now, your past it and i think the word "beat" does not do enough justice to what I did to you. I think the word "annihilate" is more well suited.

losers what does this map prove exactly? Unlike cs_fighters and other such maps the distance is more or less identical so aim is only really tested at one level where as fighters etc are done over much longer distances and more varied.

If u ask me s*** map and proves f*** all about the validity of someones aim and why is it the complete retards that are saying acolytes aim must be s***?

UKT 1v1 Round 1 - Monday Night Results

Posted by Dev at 22:39 21/4/2003.

Finally we got started tonight and with only 2 no shows the night has gone pretty well. Just a few things to remind people of. **AWP is not allowed** if you kill your oponent with it you will default the game, so don't pick it up. If you can't make your game and you haven't done so by now contact me so I can arrange a fit in, a lot of people want to play in the tournament. Anyway back to the good stuff and here are the results:

LordOfBlood 29 – 5 Arsen
Barra > Atemi (default)
JD > Dartagnan (default)
Gingerfish 42 – 37 Acolyte
Genics 48 – 38 StriKen
Madmk 58 – 22 Aardvark
Liqqy 54 – 37 THEGAME

Tune in tommorow night for tommorows results.

If I really wanted to a be some sort of "pro gamer", i'm sure i'd be bothered to invest the time. I just find it amusing that you of all people (who seems to THINK

I'd just like to point out Paul that Montaver played against 4Kings at UKTerrorist LAN with Xtra, and despite having no tactics and no preparation they still won 8 rounds, so they must have been doing something right :)
